What field are you currently working in or studying? Is that your desired area of work?

What are you looking to change? (Be specific. Examples include help in writing contracts for clients, help in marketing my freelance business, advice in a particular area of expertise, or help in transitioning from one specialization to another such as business editing to academic editing...)

What type of support are you looking for from a mentor? (a particular expertise, experience with freelance, encouragement, accountability...)

How will you use the guidance you receive and how will you engage in the mentorship relationship?

What would you like to take away from this mentorship experience?

What are your other goals or interests that maybe relevant to matching you with a mentor?

Please send your one-page statement and this completed application to:
